To Whom It May Concern:

I am pleased to write this letter in support of Care Package Inbound (CPI) and their efforts to secure funding to continue serving children and families throughout our community.

At Children's Mercy, we are privileged to care for children and families during some of the most challenging moments of their lives. Through our partnership with CPI, we have witnessed the meaningful impact that thoughtful, practical support can have on a child who is facing uncertainty, stress, or hardship.

CPI understands that meeting a child's needs extends beyond medical care alone. The care packages they provide offer essential items, comfort, and reassurance to children who may be navigating difficult circumstances. What may seem like a simple collection of supplies can have a powerful impact on a child and their family by creating a sense of comfort, dignity, and stability when it is needed most.

One of the qualities that sets CPI apart is their commitment to responding to the needs of children with compassion and intentionality. Their organization consistently demonstrates a willingness to collaborate with community partners, listen to the needs of those they serve, and provide resources that make a tangible difference in the lives of children and families.

Community partnerships are vital to advancing the well-being of children, and CPI exemplifies the positive outcomes that are possible when organizations work together toward a shared mission. Their dedication to supporting vulnerable children reflects a deep commitment to strengthening our community and ensuring that families have access to resources that promote comfort, hope, and care.

We are grateful for our partnership with CPI and appreciate the important role they play in supporting children and families throughout our region. I wholeheartedly support their efforts to secure funding and encourage favorable consideration of their grant applications. Continued investment in CPI will allow them to expand their impact and continue providing meaningful support to children when they need it most.

Thank you for your consideration.

Sincerely,

Weston Kraly
